

Mohammed Nihan

Bengaluru, Karnataka · +91-9845325913 · contact@nihu.in · linkedin.com/in/nihan-nihu · github.com/nihan-nihu · nihu.in

Technical Skills

Languages: Python, JavaScript (ES6+), TypeScript, Java, SQL, HTML/CSS

Frameworks & Libraries: React.js, Node.js, Express.js, Next.js, Tailwind CSS, Electron

Databases & Caching: MongoDB, PostgreSQL, MySQL, Redis

DevOps & Cloud: Docker, AWS (EC2, S3, IAM), CI/CD (GitHub Actions), Git, Linux

Core Domains: Agentic AI (Gemini, Ollama), System Design, Distributed Systems, OOP, RESTful & WebSocket APIs

Experience

Omni-IDE (Govt. of India Recognized MSME — UDYAM-KR-03-0681404)

Bengaluru, India

Founder & Lead Software Engineer

Jan 2026 – Present

- Architected and launched **Omni-IDE v3.0**, a local-native AI code editor achieving **15,795+ deployments** across **120+ engineering teams** in 14 days; organically indexed on the Neura Market Global AI Directory.
- Engineered a proprietary **Self-Healing Terminal Loop** integrating Google Gemini API and local Ollama inference to autonomously detect runtime errors, generate targeted patches, and re-execute code without human intervention.
- Built **Omni-Guard**, a deterministic Docker sandboxing middleware ensuring zero-telemetry, host OS security, and PII leak prevention during LLM prompt generation.
- Invited as **Chief Guest** on DECODE FM's *Founders Mindset Podcast*; managed Agile/Jira workflows across a cross-functional engineering team including frontend specialists and project managers.

Scan AI Private Limited

Bengaluru, India

Lead AI/ML Engineer Intern

Apr 2026 – Present

- Leading development of **Onco-Navigator AI**, an automated pathology interpretation platform; deployed a primary ML model achieving **94% accuracy** in oncological anomaly detection.
- Integrated a secondary deep learning vision model for X-ray analysis generating real-time segmentation masks with **97.64% accuracy** and a **0.8108 Dice Score**.
- Containerized the dual-model ML inference pipeline using Docker and deployed on AWS (EC2/S3) for scalable, high-availability diagnostic feedback.

Infovue Solutions Inc.

Bengaluru, India

Full Stack Developer Intern

Dec 2023 – Apr 2024

- Architected a MERN-stack application serving thousands of concurrent users, maintaining **99.9% uptime** through robust error handling and modular component design.
- Engineered RESTful APIs for the iBox Modules & PCon platforms, reducing server response time by **40%** via advanced database indexing and query optimization.
- Automated CI/CD pipelines using GitHub Actions, cutting deployment time by **60%** and enabling zero-downtime production releases.

Internship Studio

Bengaluru, India

AWS Cloud Intern

Feb 2026 – May 2026

- Configured AWS EC2, S3, and IAM environments; enforced security groups, IAM roles, and access policies for production cloud-hosted applications.

Projects

SAI Edge Scout (Omni Scout)

2026

/ React Native, Python, Computer Vision ML Frameworks

- Grand Finale Finalist — Mini Smart India Hackathon (SIH) 2026**, Presidency University. Designed a mobile AI platform for real-time athletic performance tracking using edge-based computer vision models for low-latency kinematic analysis.

High-Performance E-Commerce Engine

Jan 2024 – Present

/ MERN Stack, Redis, WebSockets, Stripe API

- Built a high-concurrency backend using MongoDB ACID Transactions; integrated Redis caching to reduce database read load by **30%**; implemented WebSockets for real-time inventory updates and Stripe for PCI-DSS compliant payment processing.

Education

Visvesvaraya Technological University (VTU) — Ghousia College of Engineering

Bengaluru, India

Bachelor of Engineering in Computer Science

Aug 2023 – May 2027

SGPA: 8.0/10 | Coursework: DSA, OS, DBMS, Computer Networks, OOP | NDLI Club Member

Achievements & Certifications

- Competitor — Build for Bengaluru Hackathon 2026 | AI Trading Agents Hackathon.
- Certifications:** Claude Code in Action (Anthropic) | AWS Cloud Training (Internship Studio) | Java Developer Internship (Alfido Tech) | SQL & Database Assessment (LearnTube.ai).
